| <b>Learning outcomes:</b><br>Students will acquire knowledge related to the resolution of family law relationships involving a foreign element, which are becoming increasingly frequent in legal practice, thereby gaining added value for their future professional careers. At the same time, they will become familiar with the interaction between the sources of law governing this area, which provides a significant advantage for further studies in private international and procedural law. The course is focused on solving practical cases, with an emphasis on the development of practical legal skills.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |    |                                                 |    |                             |                                 |
